

Navajo

*To my rock, to the one who taught me so much,
Navajo, I'm forever grateful for all the love, joy,
and time we shared.*

*Although your physical body returned to Mother Earth,
your spirit will remain forever in my heart.*

In the measure of time, your life was too short.

In the measure of Love, you are endless.

*I know that the animal kingdom is embracing your
magnificent spirit and that you are truly precious
and eternal.*

*I ask all the spirits of nature to assist in the healing
of my heart.*

*All My Love,
Lucy*
